RE: Accountable Home Care

To Whom It May Concern:

I have utilized Buddy Maver and Affordable Home Care in the past for care for my mother-in-law. The services rendered were daily care, 24 hours a day. The services rendered were competent and my mother-in-law's care was extremely competent and of the highest caliber. We employed Affordable for several years and never experienced any serious problems. Both Mr. Maver and his caregivers were always approachable and attentive to any concerns we might have had.

I have and would continue to recommend this service for anyone in need of care services for their loved one.

Sincerely,

ZULANDT & SMALHEER
